

Research areas and foci are as follows:

Environmental/ecological design:

Spatial design

Furniture / appliance design. **Cayla**

Materials design – exterior. **Mandy**

Materials design – interior. **Dan**

Energy generation design. **Molly**

Lighting design. **Amy Miller**

Design of water collection or treatment systems or water using systems. **Gemma O.**

Design of waste treatment systems

Design of heating, cooking and/or cooling systems. **Serena**

Design of food generation systems. **Emma J.**

Biomimetic design:

Spatial design. **Jenna**

Furniture / appliance design. **Maraka**

Materials design – exterior. **Gemma**

Materials design – interior. **Jasmin**

Energy generation design. **Morgan**

Lighting design. **Andy**

Design of water collection or treatment systems or water using systems. **Sarah T.**

Design of waste treatment systems

Design of heating, cooking and/or cooling systems. **Kanae**

Design of food generation systems. **Katie**

Appro-tech and minimal materials:

Spatial design

Furniture / appliance design. **Sinead**

Materials design – exterior. **Shambavi**

Materials design – interior. **Lizzie**

Energy generation design. **Cat**

Lighting design. **Sophie**

Design of water collection or treatment systems or water using systems. **Scott**

Design of waste treatment systems. **Maree L**

Design of heating, cooking and/or cooling systems

Design of food generation systems. **Marie S.**
